

## DAY 1 TASK

Name - Adya Kumari

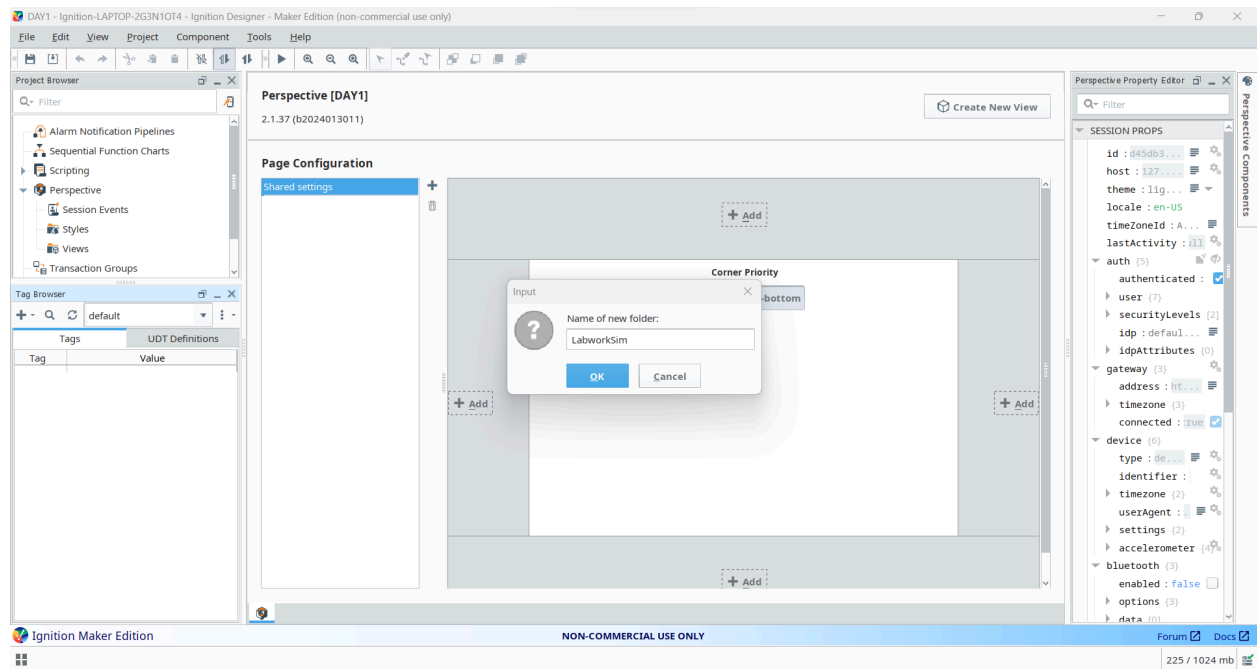

### 1. In the Gateway Webpage, add a new device connection

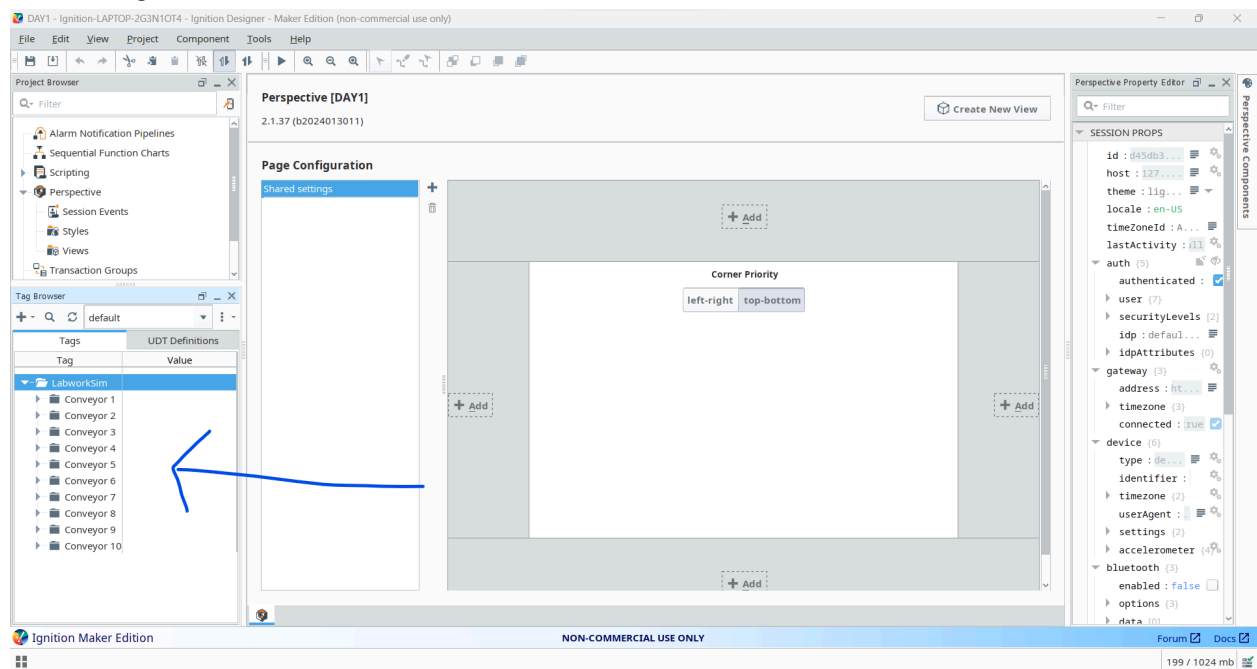

### 2. Creating a Tag Group Named "LabworkRate" and Set the group to a constant 2 second rate

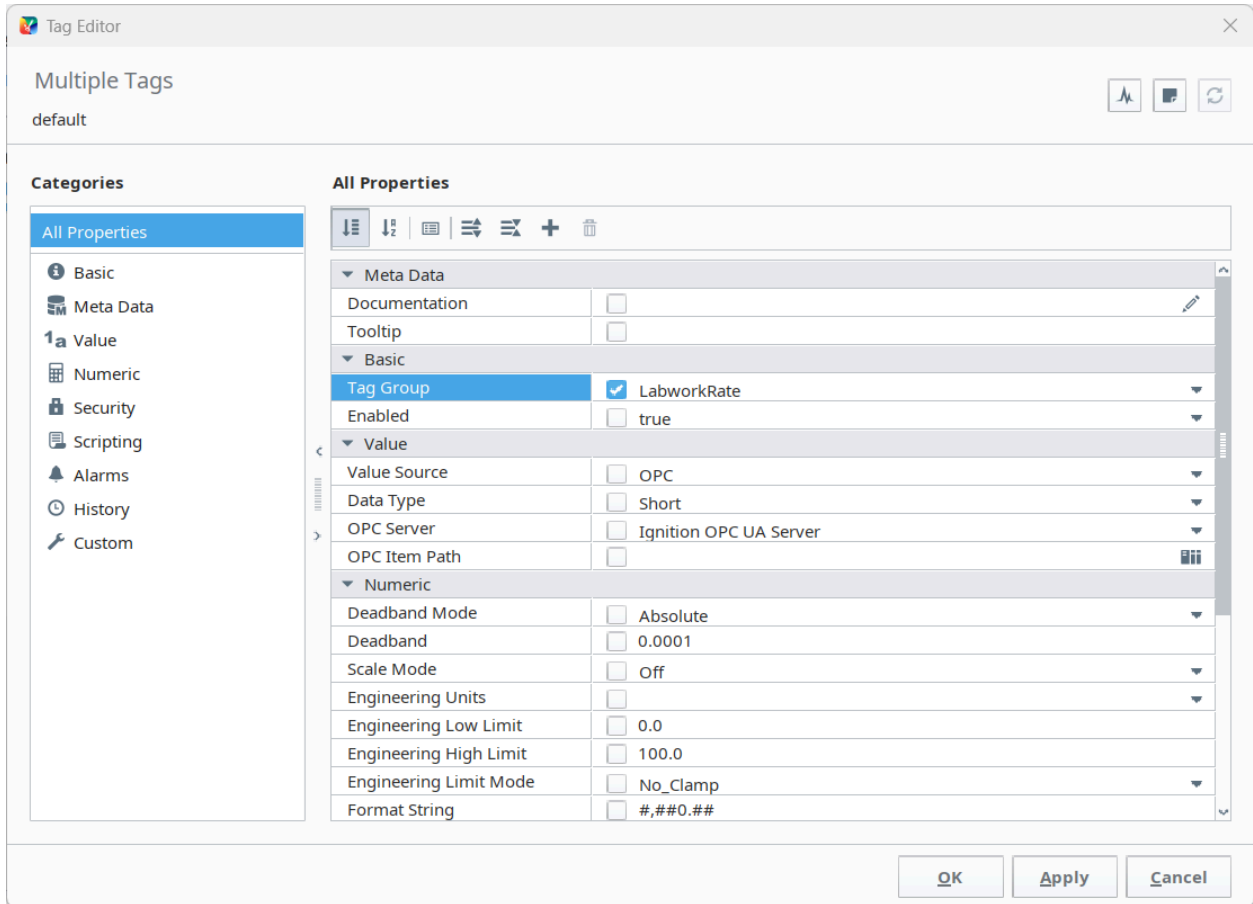

### 3. Create a “LabworkSim” folder in the Tag Browser

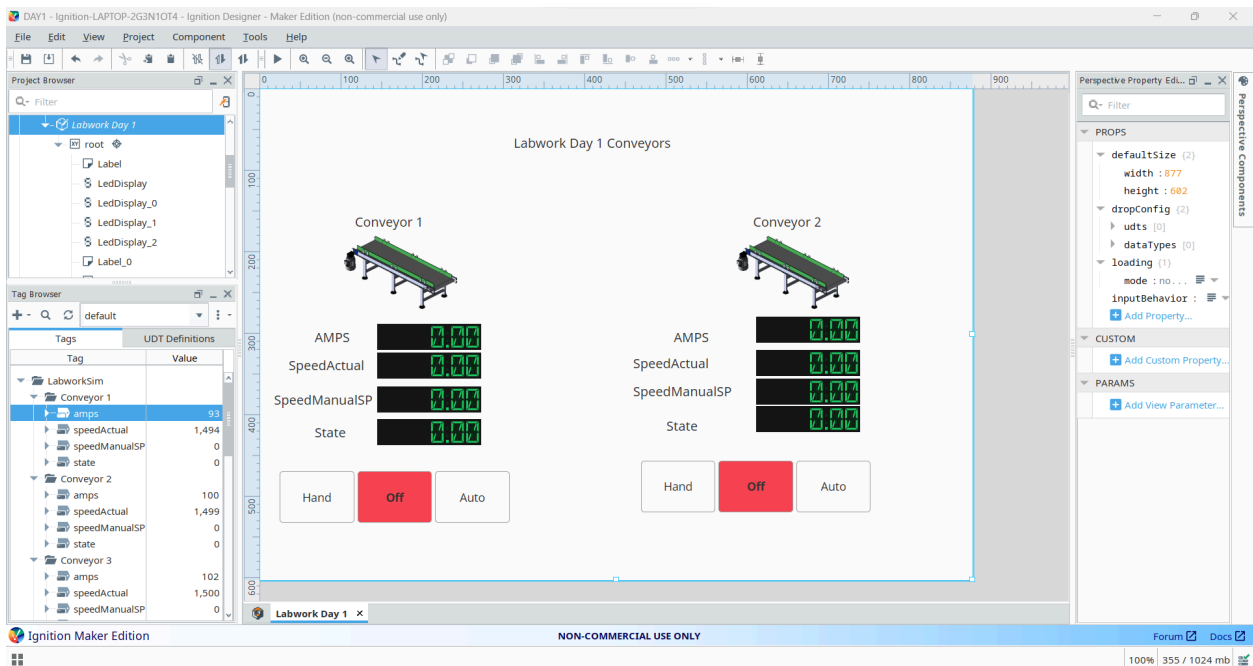

### Add all tags from the new LabworkSim device to the new LabworkSim folder

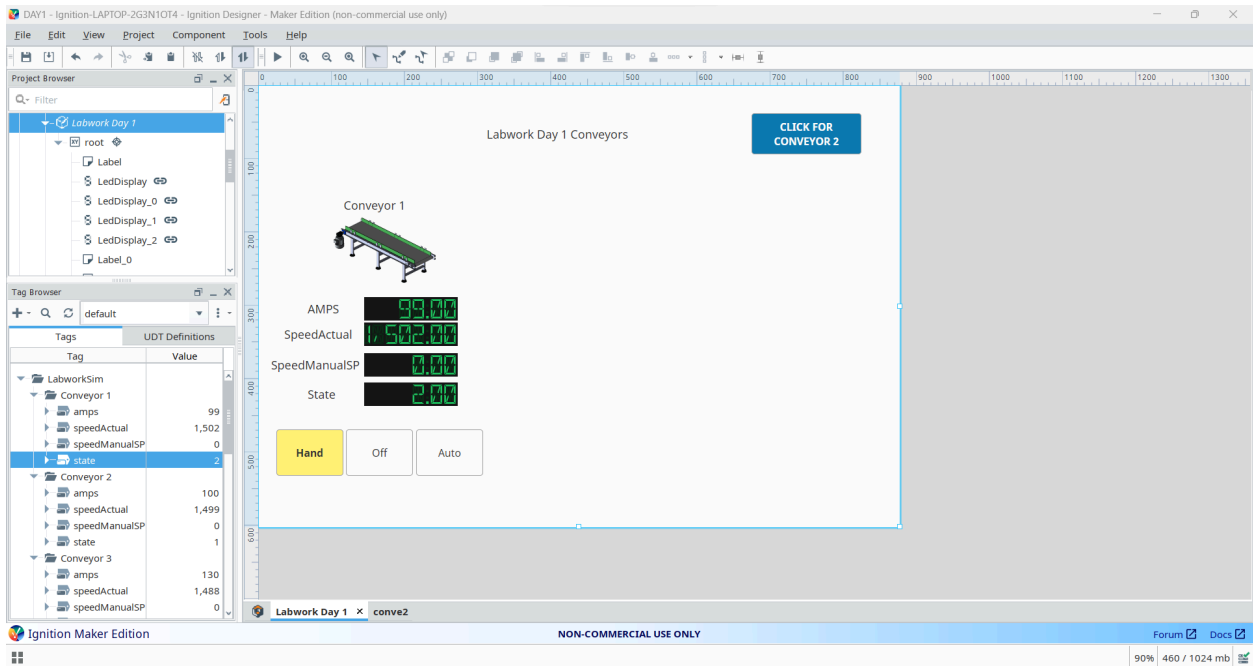

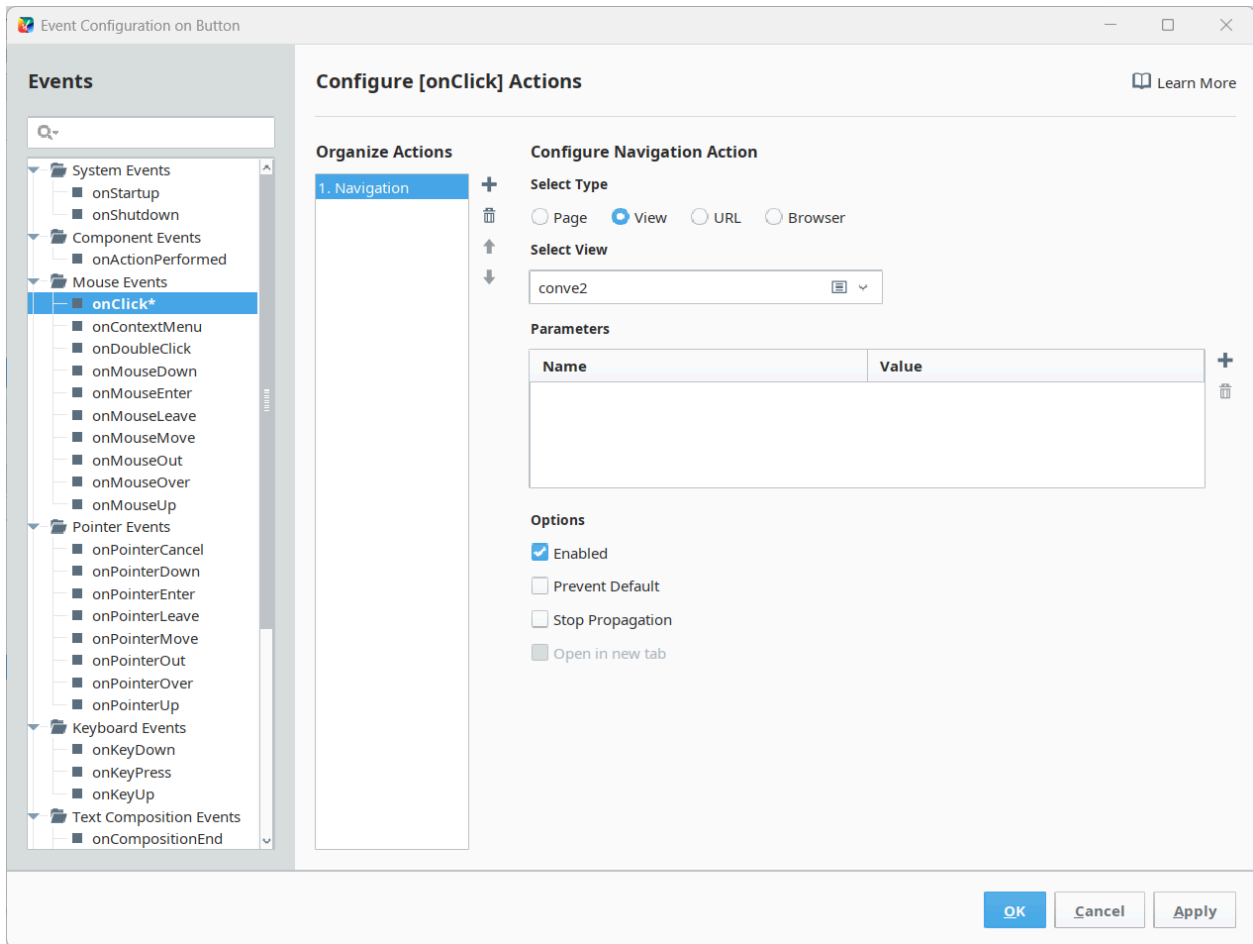

Update all tags in the LabworkSim folder to use the LabworkRate Tag Group. You can multi-select tags to set all their properties at the same time

4.Added a “Labwork Day 1” main window.

DAY1 - Ignition-LAPTOP-2G3N1OT4 - Ignition Designer - Maker Edition (non-commercial use only)
